Question-3:

Upload 5 images to ibm object storage and make it public. Write html code to displaying all the 5 images

Question-4:

upload a css page to the object storage and use the same page in your HTML code

Question-5:

cloud computing

- Cloud computing is the on-demand delivery of IT resources over the Internet with pay-as-you-go pricing. Instead of buying, owning, and maintaining physical data centers and servers, you can access technology services, such as computing power, storage, and databases, on an as-needed basis from a cloud provider like Amazon Web Services (AWS).

Cloud Computing
(CloudKam-jyot-ia)

The delivery of different services through the Internet which includes data storage, servers, databases, networking, and software.

- Accessibility anywhere, with any device.
- Ability to get rid of most or all hardware and software.
- Centralized data security.
- Higher performance and availability.
- Quick application deployment.
- Instant business insights.
- Business continuity.
- Price-performance and cost savings.
